MESSAGE FROM THE MINISTER FOR EDUCATION & EMPLOYMENT

Lifelong learning is a form of self-initiated education, focused on personal development and best described as being voluntary with the purpose of achieving personal fulfilment. This is motivated by the belief that learning is a lifelong journey. Acquiring new skills throughout life not only enhances wellbeing, but also employment prospects.

Since our first day in office, we were clear in our commitment to prioritise the provision of a variety of quality learning paths and lifelong learning; areas that encourage active participation in Malta's economic and cultural growth, regardless of one's age, interests, abilities and social background.

Education is very crucial for adults as it gives them an opportunity to better their studies and, consequently, advance in their career. An important part of education is adult learning, through academic courses, and in this, the Directorate for Research, Lifelong Learning and Employability within the Ministry, plays a central part.

These yearly academic courses are vital not only as a personal milestone for those furthering their studies but in turn, towards strengthening our economy through the employment sector. As can be seen in this booklet, the Department is again offering an extensive variety of courses to target a wide range of interests for those who are determined to increase their skills and capabilities.

As a Government, we are committed towards Lifelong Learning by providing a strong foundation to the student in order for him to find the first stepping stone that will encourage him to continue with his studies. We are determined to eliminate the thought that school ends once someone is sixteen years of age or upon completing tertiary education. Every day we learn new things, even outside the formal education sphere. Lifelong Learning offers this opportunity for accessible learning to everyone who is willing to learn, and is facilitated by evening courses for all those who work during the day but want to further their studies.

I thank everyone who is involved, directly or indirectly, with the demanding work that goes into teaching and helping those who wish to improve their level of education. I also congratulate those students who will be taking the decision to participate in one of these academic courses and I wish them good luck, both in their studies and in their personal life.

OWEN BONNICI

Minister for Education and Employment

THE DIRECTORATE FOR RESEARCH, LIFELONG LEARNING & EMPLOYABILITY

The Directorate for Research, Lifelong Learning and Employability as part of the Department for Curriculum, Lifelong Learning and Employability within the Ministry for Education and Employment is led by a vision that learning should be a lifelong journey for everyone. Individuals and communities need to acquire skills which are relevant to their lives, their needs and their work.

The Directorate offers policy guidance on lifelong learning and organises adult learning courses through personalised and innovative approaches to education. It aims to ensure that there are learning benefits for numerous different sectors: individuals, communities, employers and society at large.

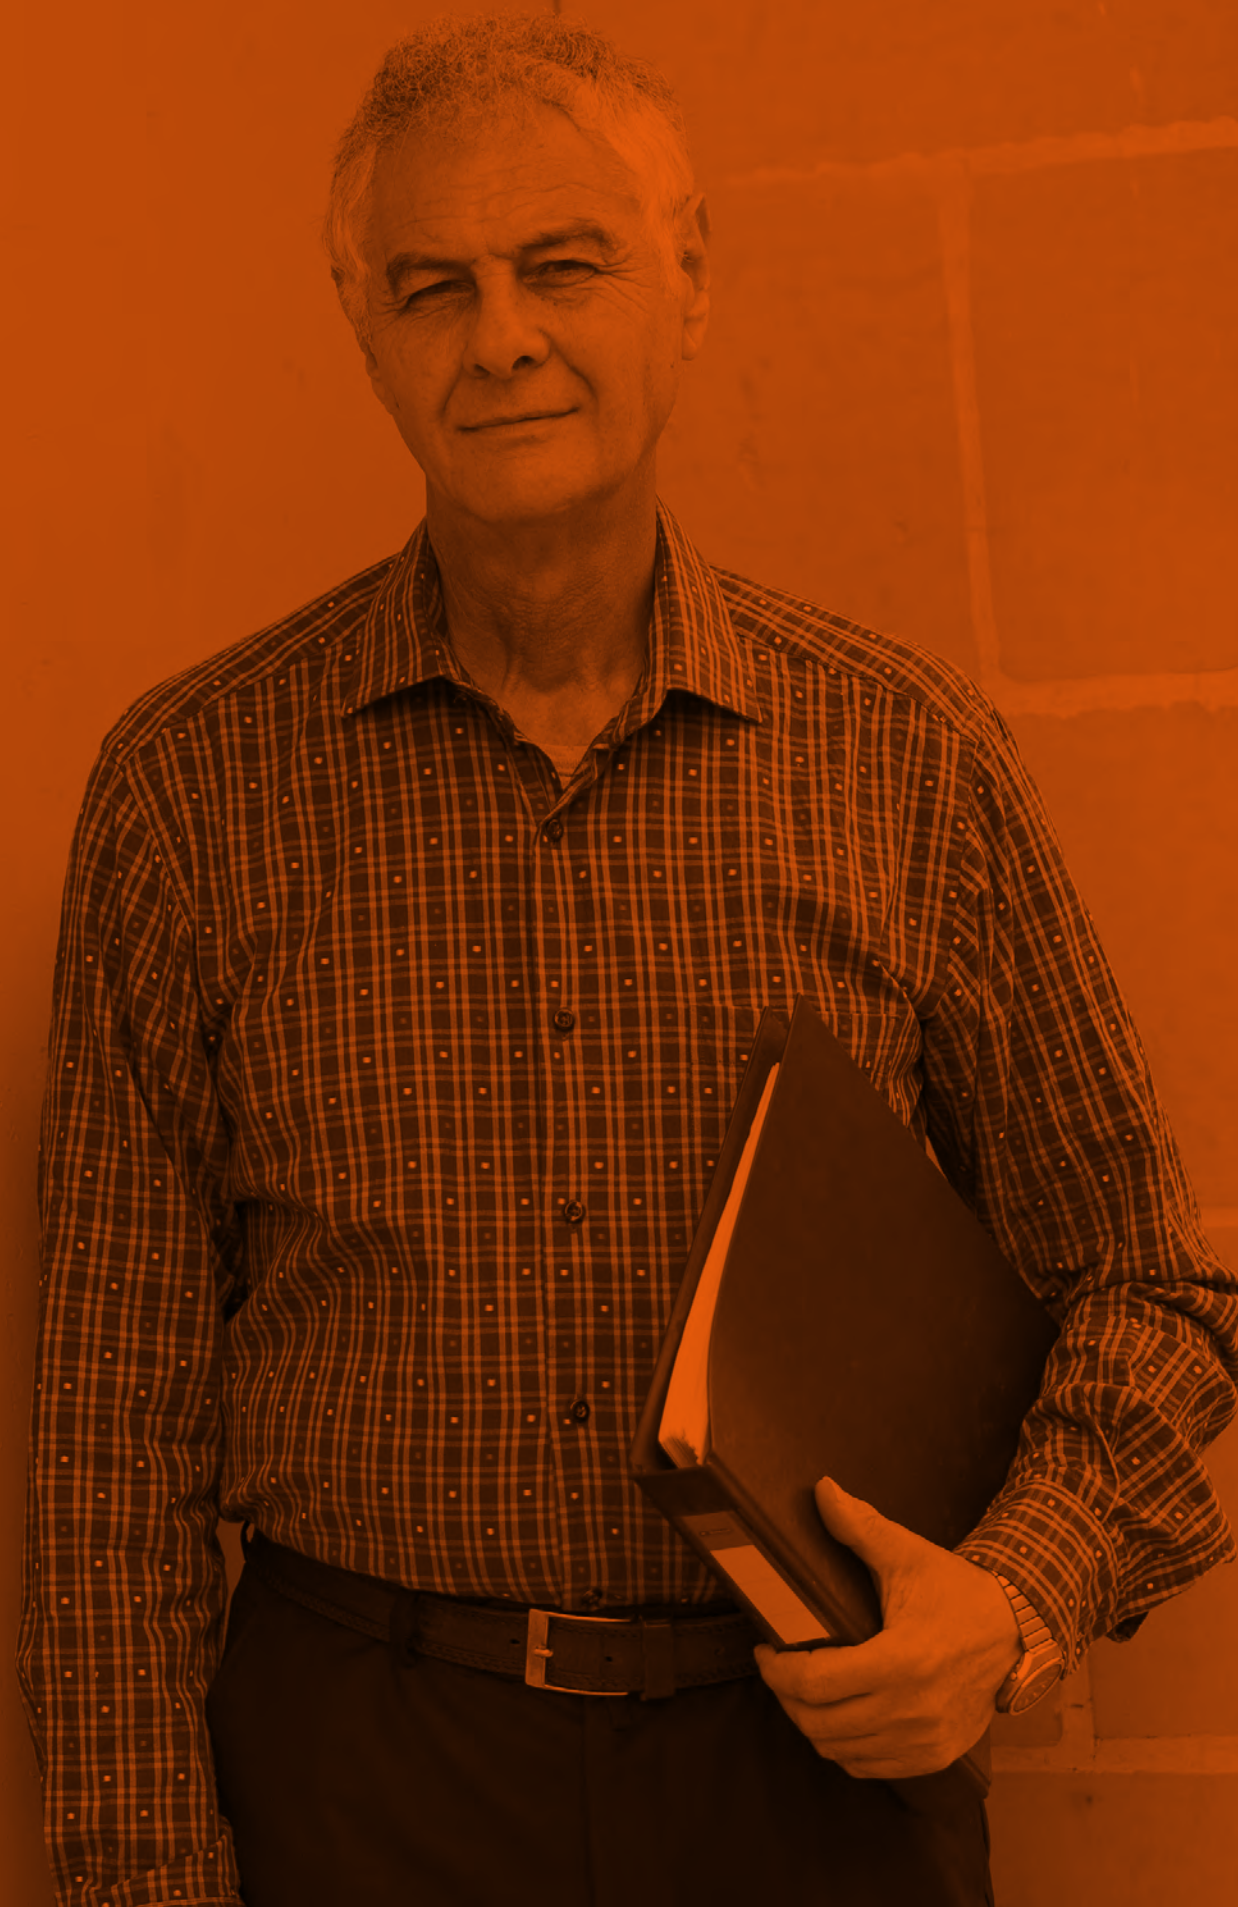

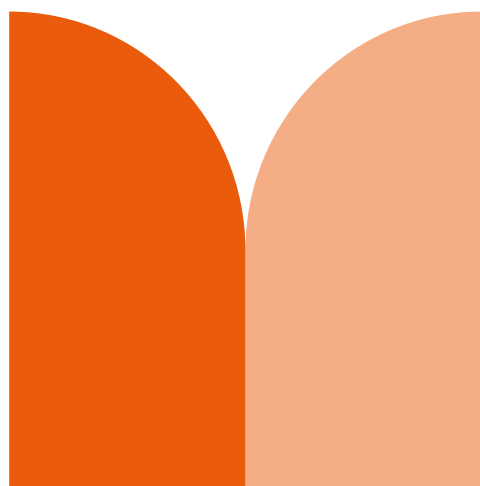

The Directorate has zero tolerance towards discrimination of any nature, whether verbal, emotional, physical, race, ethnicity, religion or political orientation or any other personal choice of the individual. Every participant or educator who offends, insults, humiliates or intimidates another person shall be asked to resign from the course immediately and where such case relates to an educator, the educator's employment with the Directorate shall be terminated immediately.

QUALITY ASSURANCE

As the National Coordinator for the European Agenda for Adult Learning, the Directorate is continuously improving the quality of adult teaching and learning in Malta. We are striving for better coordination in the sector so as to increase participation in adult learning of all kinds (formal, non-formal and informal learning), whether for the acquisition of work skills, for active citizenship, or for personal development and fulfilment. Course applicants are urged to read the Internal Quality Assurance Policy and other related documents available on www.lifelonglearning.gov.mt

Essential Skills

These Introductory Level courses will help you to improve your basic skills in reading, writing, maths and computer skills.

Mario Farrugia

*(Basic English) 67 years, Floriana
Adult Learning Centre:-*

Now that I am a pensioner and I have more time to study, I have decided to further my studies by learning English. I had already done Maltese at Level 1 and 2 and it was a very fruitful experience.

Since I am a leader and organiser within the Malta Geographic Association, I decided to study English so that I can communicate better with the non-Maltese people that I meet through the Association.

Language Learning

Courses in 11 languages are offered at various levels including level 1 and level 2, SEC and A level.

Rose Anne Buhagiar

*(Turkish Level 2) 23 years, Msida
Adult Learning Centre:-*

I am Gozitan and as a family we put a lot of value in the learning of languages. I finished my University education with a Masters' in Diplomacy and currently work as Second Secretary within the Ministry for Foreign and European Affairs. Because of my job I had to acquaint myself with many languages. Besides for my career, I am learning Turkish because I believe in the value of exploring different cultures and be able to communicate with different people.

Charmaine Vella

(Malti SEC and Advanced), 50 years, Blata I-Bajda Adult Learning Centre:-

I have always loved the Maltese Language. Deepening my knowledge in my native language is an opportunity which I didn't have when I was younger but which I am now pursuing thanks to lifelong learning. I started by enrolling in the Maltese O'level course with lifelong learning and then also the Advanced level. These qualifications allowed me to start reading for a Diploma in Proof Reading at University. I write poetry in Maltese and so far have written more than 500. My dream is to publish a book with my poems!

Nadia Calderone

*(EFL), 38 years, Tarxien
Adult Learning Centre:-*

I am from Turin, an accountant by profession. I moved to Malta with my family over a year ago, searching for a job. I fell in love with Malta, for the sun and the sea, but also because it offers my son a sound educational system. This year I started learning English as a foreign language, and next year I am planning to start Maltese as well. The lessons are engaging and it is a great opportunity to have such course at such subsidised rates.

Improving Education and Career Prospects

Adult learning can help you boost your career prospects. These courses include O' level and A' level revision classes, computer courses, as well as vocational and training courses.

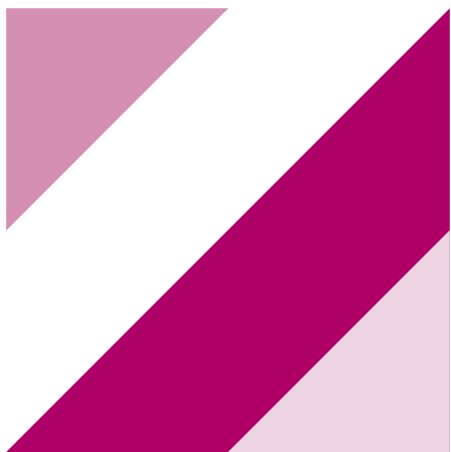

Keith Seychell

(Maths O Level), 42 years, Tarxien Adult Learning Centre:-

I am always up to a challenge in life and attending courses at Lifelong Learning provides me with many but it's always fun. That is why I have attended many courses. I did my English, Maltese and Maths O levels; I got my ECDL and now I can share what I learn with my daughter who is in secondary school. I also like crafts and have attended ganutell and guilding classes. It's important to keep learning and it's never too late in life!

Chalarin Uengkla
*(Accounting), 25 years, Mosta
Adult Learning Centre:-*

I am from the Philippines and recently moved to a new job. My boss was keen that I come for my weekly lesson in accounting at Lifelong Learning. Studying accounts has been of great help for my new job. My willingness to learn was what got me this job. I also speak Maltese and I find that it helps me to feel more at home in Malta.

Healthy Living

These courses will guide you to make healthy life choices and improve your life skills.

Elvio Fenech

(Cookery and Nutrition), 42 years, Mosta Adult Learning Centre:-

Attending this course has helped me in life. I suffer from chronic depression and even going to do my groceries was an issue. I joined the course because I wanted to learn how to cook and be more independent. Now I can see that my self esteem is improving and I am even doing my own grocery shopping. Learning has given much more than just knowledge.

Creative Expression

Over 20 craft courses have been designed to enable you to showcase your creative side.

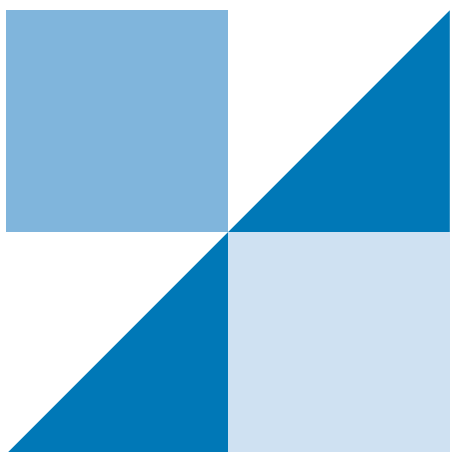

Andre Xiberras

*(Basic Sewing), 21 years, Għajnsielem
Adult Learning Centre:-*

I was always interested in fashion and I wish that I make a career out of it. At the same time I am also attending the Fashion and Retail course in MCAST. Lifelong Learning has been an amazing experience, where I learnt a lot, from my teacher and also from fellow students. Next year I will surely continue with a further course in sewing.

Sabina Zaharieva

*(Photography) 33 years, Msida
Adult Learning Centre:-*

I am from Bulgaria and have been living in Malta for the last 18 years. I work as a Spa Manager but my passion is learning. Besides the course in photography, I am also taking other courses: Marketing Advanced, Psychology and Maltese as a foreign language at Blata I-Bajda. Courses are fun and challenging, and they are also an opportunity to meet new people. I feel inspired and learning has opened new doors of opportunity for me.

COURSE LEVELS, CERTIFICATES AND QUALIFICATIONS

It is important that learners choose the appropriate courses and levels that fit their needs and abilities. It is recommended that participants apply for a course level higher than that already obtained in the same subject.

A Certificate of Attendance can only be issued if participants attend 80% of lessons. In the case of courses which are accredited and/or have a formal assessment, only participants who attend 80% of the course lessons can sit for such exams/be formally assessed. A Certificate of Attendance does not imply that the students have been formally assessed. Students not eligible for a Certificate of Attendance can request a letter by the Directorate indicating the number/percentage of

course lessons they attended. This letter can be requested within one year from the end of the course.

The Directorate offers various course levels including:

Introductory Level

These courses target students with difficulties in reading and/or writing, maths and computing. These lessons are mainly conducted in Maltese.

MQF Level 1, MQF Level 2 and MQF Level 3

Malta Qualifications Framework courses (MQF) indicate that these courses have been accredited by the National Commission for Further and Higher Education (NCFHE).

MQF 1 indicates a basic course in the chosen subject. At MQF 2 and MQF 3 students will continue to improve competences in that subject.

The accreditation process is still on-going for a number of courses. These will not necessarily be accredited within this academic year. However, the levels are included as an indication of the level one can expect to reach through these courses.

MATSEC

This refers to the Secondary Education Certificate (SEC), also known as the O' level, Intermediate level and Advanced level. The Directorate offers revision courses for MATSEC. Students who register for these courses are expected to have already reached the required level in the relevant subject.

Other Levels

There are other courses such as ECDL (MQF 3) and Electrical Installation (Licence A & B) that prepare participants for other examining bodies.

Open Classes

These courses are for learners who have been learning the topic for a number of years. Through these Open Classes, learners will have the opportunity to continue improving their skills.

Certificates may be requested from the Directorate by not later than one year from the completion of the course.

ATTENDANCE

Regular attendance to course sessions is of utmost importance in the learning process. We are concerned about your absence; therefore, you are requested to inform your educator when you cannot attend a particular session. It is strongly advised that applicants, who do not wish or cannot start attending the course, immediately inform the Directorate so that the course will be offered to an eligible applicant on the waiting list.

FACILITIES

Our Centres are hosted within State schools used for compulsory education in the morning. The Directorate also offers courses in collaboration with Local Councils and NGOs in other venues.

Participants are to take good care of the classrooms, laboratories and other facilities in the Learning Centres. The Centres are to be kept clean at all times.

Smoking is prohibited at all Centres.

The Directorate shall not be held responsible for the maintenance of Centres/schools that do not fall directly under its remit.

SUGGESTIONS AND COMPLAINTS

Your suggestions and complaints matter to us. Each Learning Centre has a coordinator assigned to it. If you notice any problems at the Centre or with your course, and you would like to file a complaint or make suggestions, kindly speak directly to your coordinator, or send an email to: lifelonglearning@gov.mt

RULES AND PROCEDURES

- Courses leading to SEC, Intermediate or Advanced Level are a revision of the syllabus and therefore the educators are not expected to cover the full syllabus that would normally take years to cover in compulsory school or at post-secondary level.
- Once your registration is accepted, you will need to follow the rules and procedures issued from time to time by the Directorate. Participants infringing these rules and procedures may be asked to resign from the course.
- Participants found attending a course without having paid (where applicable), shall be asked to resign immediately.
- The Directorate does not assume responsibility if an adult educator terminates his or her service but will take all the necessary measures to find a replacement educator as soon as possible.
- Applicants can only apply for one course level in a particular subject.
- Courses shall be delivered only in Maltese and English, unless the course topic is another language where the language of instruction shall also be that other language.
- Adult educators are allocated to different courses by the Directorate. Applicants must note that they are applying for a particular subject and not to be placed in a class with a particular educator.
- Adult educators may ask for your personal contact details, such as a mobile number, so that you can be notified as soon as possible should a lesson be postponed due to an emergency. It shall be at the participants' discretion whether to give or not such information.
- Concerning health and safety provisions, educators may also ask you to provide information regarding next of kin or medical conditions. It shall be at the participants' discretion whether to give or not such information.
- Every effort will be made to give precise information about each course. However, the Directorate is not to be held responsible for any errors or missing information.

- Courses leading to official examinations, such as MQF1, MQF2, MQF3 and MATSEC, come to an end on the date of the examination, irrespective of when the examination is held.
- Particular situations not highlighted in this booklet may arise, in which case, the Directorate reserves the right to take a decision that it deems fit under the circumstances.
- The Directorate reserves the right to make changes to the timetables depending on the number of applicants and availability of adult educators.
- Course notes, materials, tools and any other resources used in class are to be bought by participants.
